

Dear ACPELIA,

I am writing on behalf of EduArt to express our heartfelt gratitude and share the positive impact of the "Green Wardrobe " youth exchange held in collaboration with ACPELIA. Being a part of this initiative has been incredibly beneficial for both our organization and the youth participants involved.

The Green Wardrobe project has significantly contributed to our mission of promoting sustainable fashion and responsible consumption. The innovative tools and methods we were introduced to have greatly improved our approach to engaging with youth, allowing us to address sustainability issues more effectively. Collaborating with ACPELIA and other partners has not only expanded our network but also strengthened our ability to serve the youth community more efficiently.

The feedback from our participants highlights the personal benefits they gained from the exchange program.

Many participants have implemented changes in their consumption habits and greater awareness of the environmental impacts of their fashion choices. The program provided a supportive space for them to explore sustainable alternatives and develop a more eco-friendly wardrobe.

The exchange also gave to participants new skills and strategies to promote sustainable fashion within their communities. The workshops and activities offered practical tools for supporting a culture of sustainability and ethical consumption. They now feel more confident in leading discussions and activities on these topics.

The exchange created strong and supportive relationships among participants. These connections have enriched their professional and personal lives and are ongoing now.

The opportunity to learn about different cultures and perspectives on sustainability and fashion was greatly appreciated by the participants. This cultural exchange expanded their understanding and the importance of promoting diversity and acceptance in sustainable practices.

We are truly grateful for the chance to be part of this transformative project. It has been a highly impactful experience for our youth workers, providing them with essential tools and experiences that will enhance their well-being and professional capabilities. We eagerly look forward to future collaborations with ACPELIA and continuing our shared mission of empowering young people to make sustainable choices.

Thank you once again for organizing such a meaningful project.

Sincerely,

Elena Tasheva Trpenovski
President, EduArt Organization
